This is a book that covers a powerful principle that God has given us to build His Kingdom and release His blessing on our lives. The principle is financial partnership and is about joining forces with (traveling) ministries. When we apply this principle, God’s Kingdom is built and our lives are made wealthier. In other words: we live through giving. Financial partnership is not about giving a donation to a ministry, it’s about joining forces for God’s Kingdom and receiving all the blessings that come with it. You will never look at this subject in the same way again once you have read this book.
